## EDUCATION

---

### •Kamala institute of technology and science

2023-2027

B.Tech/AIML

CGPA/Percentage: 8.2

### •Alphores Junior College

2021-2023

Board of Intermediate Education, State

CGPA/Percentage: 92.3

### •Sachdeva School of Excellence

2009-2021

Board of Secondary Education, State

CGPA/Percentage: 10.0

## LANGUAGES

---

•English

•Telugu

•Hindi

## PROJECTS

---

### •ML PROJECT

*Developed a machine learning model to predict student academic performance using historical student data*

- Tools & technologies used: Python – Programming language Pandas – Data loading and preprocessing , NumPy
- Numerical computations, Matplotlib – Data visualization, Seaborn – Statistical data visualization, Scikit-learn
- Machine learning model development and evaluation, Jupyter Notebook / VS Code – Development environment
- Preprocessed and analyzed student performance data from a CSV file. Identified important factors affecting academic performance. Trained and tested machine learning models to predict student outcomes. Achieved accurate predictions and compared multiple algorithms to select the best-performing model. Enabled early identification of students who may require additional academic support. Generated insights through data visualization and performance metrics.

### •AI Live Proctoring Examination System

*Developed an AI-powered online examination system that monitors students during exams using webcam,micrphones,screen sharing*

- Tools & technologies used:HTML5,CSS3 ,JavaScript (Vanilla JS),Node.js, WebRTC(getUserMedia,getDisplayMedia), Web Audio API, WebSockets, Git GitHub, VS Code
- Created a secure online examination environment. Successfully integrated camera, microphone, and screen-sharing modules. Implemented real-time monitoring and violation detection mechanisms. Improved examination integrity through automated proctoring features. Generated detailed reports for exam evaluation and monitoring analysis.

### •Personal Portfolio Website for AIML Engineer

*Designed and developed a fully responsive personal portfolio website to showcase academic achievements, technical skills,projects etc*

- Tools & technologies used:HTML5 CSS3, JavaScript (Vanilla JS), Responsive Web Design, Canvas API, DOM Manipulation, Git GitHub, VS Code
- Developed a professional online portfolio for showcasing AIML skills and projects. Improved personal branding and recruiter visibility. Created an interactive and modern user experience through animations and dynamic content. Demonstrated frontend development skills using pure HTML, CSS, and JavaScript without external frameworks. Centralized academic achievements, projects, certifications, and contact information in a single platform.

## TECHNICAL SKILLS AND INTERESTS

---

**Languages:**python,java

**Cloud/Databases:**MySQL

**Soft Skills:** Communication, Teamwork, Problem Solving, Leadership, Time Management, Adaptability, Critical Thinking, Collaboration

**Courses:**Data Science,Full Stack using AI,Gen Ai

**Areas of Interest:** Full Stack Development, Artificial Intelligence, Machine Learning, Database Management Systems

## CERTIFICATIONS

---

•**Data Science:** udemy

•**python programming:** udemy

•**Java Programming:** udemy

•**MySQL:** IBM

•**GenAi:** Oracle

•**AWS(Introduction):** unstop

•**React js:** udemy

•**Full Stack BootCamp(2-months):** Student Forge -Private Limited

ACHIEVEMENTS

---

- CBIT Ideathon 2025 – Runner-Up**Showcased the Farm to Home project a platform connecting farmers*Feb 2026*
- AI Essentials in Daily Life Workshop**Participated in a workshop focused on AI fundamentals *2025*
